## Human Rights Survey

## About the Survey

Client: Policy Exchange
Fieldwork Period: September 7-8, 2022
Sampling Method: Online
Population Sampled: All adults (18+) in Great Britain
Sample Size: 1,224
Data Collection: The data is acquired from a panel provider offering participants the chance to win money. The sampling relies on an online quota approach. Specifically, participants are sampled to meet Office of National Statistics quotas for gender, age, region, socio-economic group, vote in the 2019 general election, and vote in the 2016 Brexit referendum. No criteria are used to over- or undersample respondents. To ensure the polling is representative of the target population, we use official and reliable data sources to match the sample to demographic population targets.
Weighting: The sample has been weighted to be representative of the population on the following variables: gender, age, socio-economic group, region, vote in the 2019 General Elections and 2016 Brexit referendum vote.

Red Wall: A separate sample of people living in Red Wall constituencies ( $\mathrm{N}=635$ ) was collected with the same sampling characteristics. 'Red Wall' constituencies are defined as Ashfield, Bassetlaw, Birmingham Northfield, Bishop Auckland, Blackpool South, Blyth Valley, Bolsover, Bolton North East, Burnley, Bury South, Chesterfield, Don Valley, Dudley North, Gedling, Great Grimsby, Hartlepool, Heywood and Middleton, Hyndburn, Leigh, Newcastle-under-Lyme, North West Durham, Penistone and Stocksbridge, Redcar, Rother Valley, Scunthorpe, Sedgefield, Stoke-on-Trent Central, Stoke-on-Trent North, Wakefield, West Bromwich East, West Bromwich West, Wolverhampton North East, and Workington.
